PROFESSIONAL SUMMARY

Full-stack JavaScript developer with five years of hands-on experience building responsive web applications with **React, Next.js, Node.js, Express.js** and **MongoDB**. Comfortable across the whole stack: TypeScript and Tailwind CSS on the front end, REST APIs and secure authentication (Better Auth, Firebase) on the back end, and deployment to production. Disciplined, honest and quick to adapt, looking for a collaborative team where I can ship clean, maintainable code and keep growing as an engineer.

TECHNICAL SKILLS

Frontend	JavaScript (ES6+), TypeScript, React, Next.js, CSS, Tailwind CSS
UI Libraries	shadcn/ui, daisyUI, HeroUI
Backend	Node.js, Express.js, RESTful APIs
Database	MongoDB, Supabase (PostgreSQL)
Authentication	Better Auth, Firebase
Design	Figma, Canva
Practices	API management, CRUD operations, web engineering

EXPERIENCE

Independent Web Developer – Self-Directed (Last 5 years)

- Progressed from JavaScript fundamentals to building and deploying full-stack applications on the React / Next.js and Node.js / Express stack.
- Designed and consumed REST APIs and implemented complete CRUD functionality backed by MongoDB.
- Built responsive, accessible interfaces using Tailwind CSS with shadcn/ui, daisyUI and HeroUI component libraries.
- Integrated authentication with Better Auth and Firebase, and handled CORS and deployment configuration.

PROJECTS

The Open Shelf – Book-Sharing Web Application

- Full-stack app with a separate frontend and Express.js / MongoDB backend, both deployed on Vercel.
- Implemented user login with Better Auth and resolved cross-origin (CORS) and session issues across deployments.
